ZENworks 11 SP3
Supported Capabilities by Platform

February 2014

Novell®

The following table lists the ZENworks capabilities supported on each managed device platform.

	Windows Workstation*	Windows Thin-Client Session*†	Linux Workstation	Macintosh Workstation	Windows Server	Linux Server
Asset Management	✓	✓				
Configuration Management						
Software Distribution (Bundles)	✓	✓	✓	✓	✓	✓
Configuration Policies	✓	✓	✓	✓	✓	✓
Remote Management	✓		✓	✓	✓	✓
Preboot Services and Imaging	✓		✓		✓	✓
Asset Inventory	✓		✓	✓	✓	✓
Personality Migration	✓					
Endpoint Security Management	✓					
Full Disk Encryption	✓					
Patch Management	✓		✓	✓	✓	✓

* User-based management capabilities (such as assigning bundles, Configuration policies, and Security polices to users) are supported only on Windows workstations and Windows thin-client sessions.

† Refers to ZENworks capabilities supported within users' thin-client sessions. See the Windows Server column for capabilities supported on Windows Terminal Server.
