

GroupWise Trusted Applications

Readme

Novell®

November 2012

1 Overview

To become trusted, a third-party application must use the GroupWise Trusted Application API to register with GroupWise when it is installed. Each time an application that uses this API is installed, trusted application record is created for that installation and an application key is returned. After the application is authenticated with that key, GroupWise allows access to a user's mailbox as if it were the user.

2 What's New

To see what has changed for each version of GroupWise, see "[Revision History](#)" in *GroupWise SDK: Trusted Applications*.

3 GroupWise Installation

You can download an evaluation copy of GroupWise on the [Novell Downloads site](http://download.novell.com/index.jsp) (<http://download.novell.com/index.jsp>).

For complete installation instructions, see the *GroupWise 2012 Installation Guide*.

4 Documentation

You can view the Trusted Applications documentation from the [Novell Developer Web site](http://www.novell.com/developer/ndk/groupwise/groupwise_trusted_application_api.html) (http://www.novell.com/developer/ndk/groupwise/groupwise_trusted_application_api.html).

5 Support and Feedback

Please direct technical questions and comments to the [Novell Developer Forum](http://forums.novell.com/novell-product-discussions/developers) (<http://forums.novell.com/novell-product-discussions/developers>).

You can also find helpful information in [GroupWise Cool Solutions](http://www.gwmag.com) (<http://www.gwmag.com>).

6 Legal Notices

Novell, Inc. makes no representations or warranties with respect to the contents or use of this documentation, and specifically disclaims any express or implied warranties of merchantability or fitness for any particular purpose. Further, Novell, Inc. reserves the right to revise this publication and to make changes to its content, at any time, without obligation to notify any person or entity of such revisions or changes.

Further, Novell, Inc. makes no representations or warranties with respect to any software, and specifically disclaims any express or implied warranties of merchantability or fitness for any particular purpose. Further, Novell, Inc. reserves the right to make changes to any and all parts of Novell software, at any time, without any obligation to notify any person or entity of such changes.

Any products or technical information provided under this Agreement may be subject to U.S. export controls and the trade laws of other countries. You agree to comply with all export control regulations and to obtain any required licenses or classification to export, re-export, or import deliverables. You agree not to export or re-export to entities on the current U.S. export exclusion lists or to any embargoed or terrorist countries as specified in the U.S. export laws. You agree to not use deliverables for prohibited nuclear, missile, or chemical biological weaponry end uses. Please refer to the [Novell International Trade Services Web page \(http://www.novell.com/info/exports/\)](http://www.novell.com/info/exports/) for more information on exporting Novell software. Novell assumes no responsibility for your failure to obtain any necessary export approvals.

All files provided in this release are subject to the Novell Developer Kit License Agreement and Separate Limited Warranty, which can be found in the license.txt file provided in this download.
