

# GroupWise Connector for Outlook Sequoia Public Beta

June 28, 2005

## 1.0 Overview

The GroupWise® Connector for Outlook\* allows you to access GroupWise while maintaining your current Outlook behaviors. Instead of connecting to a Microsoft Exchange server, you are connecting to a GroupWise collaboration system.

Because Outlook and GroupWise are two different collaboration systems, some interface changes were necessary. See the GroupWise Connector Help for additional information. To access the help, click Help > Novell GroupWise Connector Help.
