ZENworks Asset Inventory - Detecting Windows 8 Metro Applications

October 2019

MICRO FOCUS®

ZENworks supports Windows 8. For each Windows 8 managed device, the device's inventory report includes a listing of the device's Metro Applications in addition to the standard list of software products.

1 Prerequisites

- Ensure that you have the View Detailed Inventory right.
- Ensure that you have a Windows 8 device with Metro Applications installed.

2 Workflow Diagram
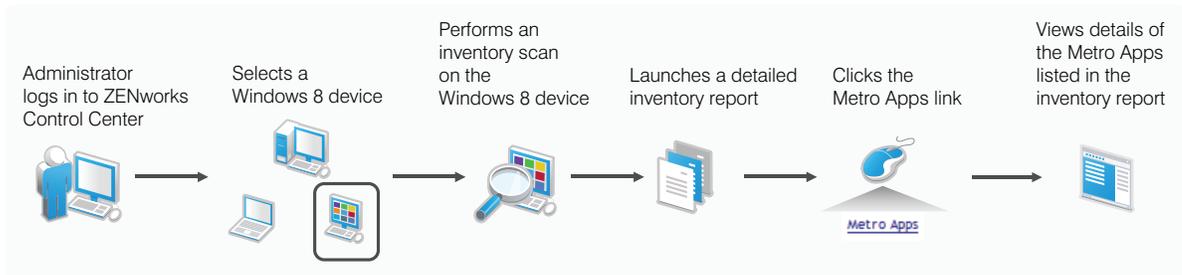

3 Procedure

To view the list of Metro Applications for a Windows 8 managed device:

1 Perform an inventory scan on a Windows 8 device that has Metro Applications installed.

2 After the inventory scan is finished, open the device's detailed inventory report in ZENworks Control Center:

  2a Click **Devices** > **Workstations**.

  2b Select the Windows 8 device for which the inventory scan is completed.

  2c Click the **Inventory** tab.

  2d Click **Detailed Hardware or Software Inventory.**

  2e Click the **Metro Apps** link in the inventory report.

  The details of the Metro Applications that are installed on the Windows 8 device are displayed.
