Documentation Conventions

In Novell documentation, a greater-than symbol (>) is used to separate actions within a step and items in a cross-reference path.

A trademark symbol (® , ™ , etc.) denotes a Novell trademark. An asterisk (*) denotes a third-party trademark.

When a single pathname can be written with a backslash for some platforms or a forward slash for other platforms, the pathname is presented with a backslash. Users of platforms that require a forward slash, such as Linux*, should use forward slashes as required by your software.

When a startup switch can be written with a forward slash for some platforms or a double hyphen for other platforms, the startup switch is presented with a forward slash. Users of platforms that require a double hyphen, such as Linux, should use double hyphens as required by your software.

How Do I Find What I Need in the GroupWise Client Documentation?

- ❑ [Step 1: Online Help in the GroupWise Client](#)
- ❑ [Step 2: User Guides on the GroupWise Documentation Web Site](#)
- ❑ [Step 3: User Comments Link in the User Guides](#)
- ❑ [Step 4: GroupWise Support Forum](#)

1.1 Step 1: Online Help in the GroupWise Client

All three GroupWise[®] clients offer online help.

- **Windows Client:** Click *Help > Help Topics*.
- **Cross-Platform Client:** Click *Help > Help Topics*.
- **WebAccess Client:** Click *Help*.

The online help in all three clients offers three ways to access the information provided in the help:

- **Contents:** Provides task oriented (“How Do I”) access to the help information. This is a great place for beginners to get started.
- **Index:** Provides alphabetical access to common tasks and features. This is a great help when you know what you want to do but you can’t figure out how to do it.
- **Search:** Provides a full text search of the help information based on keywords. If the index doesn’t have it, the full text search should.

If the online help doesn’t help you, proceed to [Step 2: User Guides on the GroupWise Documentation Web Site](#).

1.2 Step 2: User Guides on the GroupWise Documentation Web Site

All three GroupWise clients have a User Guide posted on the [GroupWise 7 Documentation Web site \(http://www.novell.com/documentation/gw7\)](http://www.novell.com/documentation/gw7) that is easy to access:

- **Windows Client:** Click *Help > User Guide*.
- **Cross-Platform Client:** Click *Help > User Guide*.
- **WebAccess Client:** Click [GroupWise 7 WebAccess Client User Guide](#), then bookmark that page for future reference.

The User Guides are provided in both HTML and PDF format. Both formats are searchable and yield different kinds of search results.

- **HTML Search:** To search the HTML version of a User Guide, click the main link to the guide on the [GroupWise 7 Documentation Web site \(http://www.novell.com/documentation/gw7\)](http://www.novell.com/documentation/gw7), then select the sections of the guide that you want to search in the left pane. All sections of the guide are selected by default. Type the word or phrase to search for, then click *Search Checked Items For*. Web search technology is used to return pages where the word or phrase is found in the User Guide, ranked according to the likelihood that the page is what you're looking for.
- **PDF Search:** To search the PDF version of a User Guide, click the PDF link to the guide on the [GroupWise 7 Documentation Web site \(http://www.novell.com/documentation/gw7\)](http://www.novell.com/documentation/gw7). Click *Find* (the binoculars icon), type the word or phrase to search for, then click *Find* to find the first instance. Click *Find Again* to continue searching through the document for instances of the word or phrase. This full text search procedure is more thorough than the Web search approach.

TIP: When you are in the HTML version of a User Guide, you can click *View PDF* at the top of any page to immediately open the PDF version of the User Guide.

If the User Guide doesn't help you, proceed to [Step 3: User Comments Link in the User Guides](#).

1.3 Step 3: User Comments Link in the User Guides

If you have searched the online help and the User Guide for the GroupWise client you are using and you still cannot find the information you need, you can submit a user comment about the documentation. Just click *Add Comment* at the bottom of any page of the HTML version of the documentation.

IMPORTANT: For best results, submit your comment on the page of the User Guide where you tried to find the information.

When you submit a user comment, one of the following things happens:

- We know where the answer to your question is in the current documentation. We send a response to you to help you find the information you need.
- We know the answer to your question and we discover that it is not in the current documentation. We send a response to you and post the information on the page where you made your comment. The information will be added to the next version of the GroupWise documentation.
- We don't know the answer to your question. We find the answer to your question, then proceed as described above.
- We technical writers can't help you resolve problems with the GroupWise software. When GroupWise doesn't work for you the way it's supposed to, we refer you to [Step 4: GroupWise Support Forum](#).

NOTE: Response times vary.

1.4 Step 4: GroupWise Support Forum

The [GroupWise Support Forum \(http://support.novell.com/forums/2gw.html\)](http://support.novell.com/forums/2gw.html) provides assistance from over 30 volunteer sysops from around the world, not to mention helpful GroupWise users from

around the world as well. If the GroupWise client isn't working for you as documented, post your problem on the GroupWise Support Forum for free assistance.

How do I customize the Home View?

See “[Understanding the Home View](#)” and “[Using Panels](#)”.

Help! I've had fun playing with my Home View. Now how do I put it back?

Right-click the *Home* icon, then click *Properties > Display > Customize Panels > Restore Defaults*.

How do I get rid of the little monthly calendars that weren't there in my GroupWise 6.5 Calendar Week view?

Right-click the *Week* button on the Calendar View bar, then click *Properties*. Select *Week*, then click *Edit*. Select *Week* instead of *Week (Default)*, then click *OK*.

How do I set up an automated response to let people know that I'm on vacation or out of the office?

See [“Creating a Vacation Rule or Auto Reply”](#).

How do I add text, such as contact information, to the bottom of every message I send?

See [“Adding a Signature or vCard to Items You Send”](#).

How do I get notified of incoming messages?

See [“Running Notify”](#).

Can I set an alarm on a task?

At present, you can't set alarms on tasks. Alarms can only be set on items that appear in your Calendar.

How do I schedule an annual event, like a birthday or anniversary?

See [“Scheduling Auto-Dates by Formula”](#).

How do I change my default font for composing and viewing messages?

See [“Changing the Font of Items You Send”](#).

What do all the little symbols next to my messages mean?

See [“Icons Appearing Next to Items in Your Mailbox, Sent Items Folder, and the Calendar”](#).

Someone gave me proxy access to a mailbox. How do I access it?

See [“Managing Someone Else's Mailbox or Calendar”](#).

Help! My folder list has disappeared. How do I get it back?

Click *View > Folder List*. If you're in a context where that doesn't work, click *Tools > Options > Environment > Appearance > Display Folder List*.

How do I turn on sound or change the sound of my appointment notifications?

When Notify is running, you have a *Notify* icon (a small globe with a letter) in your Windows system tray. Right-click the *Notify* icon, then click *Options > Alarms*. Select *Play Sound*, then select the sound file you want to play.

Can I delete attachments from a received message?

No. Not at the present time.

In the Attach File dialog box, how do I set the default file listing to Details (to include file size, type, and date) instead of List (which just lists the filenames)?

Unfortunately, you cannot change the default list presentation in GroupWise® or in the Windows* operating system environment.

How do I forward all my mail from my GroupWise account to a personal e-mail account?

See “[Creating a Rule to Forward All Mail to a Private Mail Account](#)”.

Can I transfer my GroupWise archive onto a CD to save space on my workstation and then access it from the CD when I need to refer to old items?

If you copy your GroupWise archive onto a CD, it is marked read-only. At present, GroupWise cannot open a read-only archive. You can copy it from the CD back into a read-write environment in order to access it.

You set your archive location using *Tools > Options > Environment > File Location > Archive Directory*. You need to be careful that your archive location is always set to the correct directory where you want ongoing automatic archiving to take place. At present, we do not recommend or support multiple archive locations, although it is possible.

GroupWise Client Comparison

The GroupWise product includes four clients for accessing your GroupWise® mailbox:

- **Windows Client:** A proven e-mail client for over a decade, the GroupWise Windows client is a robust, full-featured access point from your Windows desktop to your GroupWise mailbox. It offers a wide array of features to meet the needs of basic to advanced users.
- **Cross-Platform Client:** First introduced in 2004, the relatively young GroupWise Cross-Platform client offers the most vital GroupWise features to Linux* and Macintosh* users, with additional GroupWise functionality being added with each new GroupWise release.
- **WebAccess Client:** The WebAccess client provides access to your GroupWise mailbox in any environment (Windows, Linux, and Macintosh) where a browser and an Internet connection are available. In addition, using the WebAccess client, you can access your GroupWise mailbox from wireless devices such as phones, Palm OS* devices, and Windows CE devices. Some GroupWise functionality is limited because of the difficulty of implementing it in a browser-based environment. However, some advanced functionality has been implemented using Java* applets.
- **Outlook Connector:** First introduced in GroupWise 7, the GroupWise Connector for Outlook* allows you to access you to use Outlook to access your e-mail, calendar, and other collaboration data that is stored in a GroupWise mailbox. With the GroupWise Connector for Outlook, you can continue working in the Outlook environment you are accustomed to without being trained on using GroupWise.

The following tables compare the tasks that can be performed in the various GroupWise clients:
